

Regulatory Team – Brainstorming Meeting

April 30, 2014

- Are there any regulatory issues involving water conservation that require guidance from the Regulatory Team?
 - ~~SJR's prior effort review and~~
 - ~~Expand on CUPcon – mandatory / goal-based~~
 - ~~Year round irrigation restrictions~~
 - ~~Is this topic a Solutions Planning Conservation Sub Team task?~~
- What are the current water shortage criteria? ~~comparison~~
- Do regulatory constraints exist to crafting a rRecovery strategy for Solutions Team projects?
 - Timetable
 - Goals
 - MFLs / harm
 - Existing legal uses
- Should there be moratoria on new, more restrictiveNew MFLs / reservations during implementation CFWI implementation – prevention/recovery strategy?ies
- ~~Are projects permittable?~~
 - ~~Question regarding role of Regulatory Team:~~
 - ~~Review of projects for permittability?~~
 - ~~Review of existing criteria to discern ability to accomplish CFWI goals?~~
- Should any steps be taken to promote faster track for permitting of Solutions Team Projects?White paper / briefing bullets concerning existing statutory authorization
- Recharge and offsets: Will enhanced regulations be required to fully implement Solutions Team Projects?
- if rResource redistribution is part of potential solutions, are new regulations required to implement this concept?
 - Substitution credits
 - Land use transitions
 - Terminated base condition water
- Should existing regulations governing interdistrict and inter-county transfers be revisited in light of potential CFWI solutions? Interdistrict transfers

• ~~Financial options~~

• ~~Coordination with Solutions Team~~

• Would it be useful to perform a survey of wWater use caution areas / restricted allocation area
strategies employed by the WMDs?

- Regional water availability
- SWUCA
- Northern Tampa Bay
- Central Florida Coordination Area
- Volusia County MFL

• ~~Add Competition?~~
