**II. Welcome, Introductions & Acknowledgements**

Special Thanks to Sponsor (Orlando Regional REALTOR Association), Community Partners and the South Florida Water Management District, St. Johns River Water Management District and the Southwest Florida Water Management District

Jacob V. Stuart (**Confirmed**)  
President, Central Florida Partnership

Aaron J. Gorovitz (**Confirmed**)  
Chair, Central Florida Partnership  
Shareholder, Lowndes, Drosdick, Doster,  
Kantor & Reed, P.A.

**III. Understanding Our Regional Values**

In May of 2009, the Central Florida Congress of Regional Leaders identified "creating a regional water strategy" as its Number One Regional Priority. Toward this end, the Central Florida Congress of Regional Leaders sought specific recommendations from myregion.org regarding how to work together, as a region, to create a sustainable water supply strategy for the Central Florida Region. Specifically, the Central Florida Congress of Regional Leaders encouraged the exploration of a sustainable water supply strategy; one which would incorporate reducing water consumption (conservation), the sharing of water resources, and the development of alternative water supplies; while, at the same time, successfully avoiding litigation from any parties. Accordingly, through qualitative and quantitative research, myregion.org and ULI (Urban Land Institute) gathered input from over 1,000 civic, business and government leaders from the Central Florida Region; with the result of this research being a Final Report, entitled, "Creating a Sustainable Water Supply for Central Florida: A Regional Strategy."

Mark Brewer (**Confirmed**)  
Chair, myregion.org  
Board Member, Central Florida Partnership  
President & CEO, Central Florida Foundation

**IV. A Statewide Perspective – Securing Florida’s Future**

Assuming passage of Amendment #1; Florida needs to be prepared to implement this Constitutional Amendment which will provide dollars to the Land Acquisition Trust Fund to acquire, restore, improve, and manage conservation lands including wetlands and forests; fish and wildlife habitat; lands protecting water resources and drinking water sources, including the Everglades, and the water quality of rivers, lakes, and streams; beaches and shores; outdoor recreational lands; working farms and ranches; and historic or geologic sites, by dedicating 33 percent of net revenues from the existing excise tax on documents for 20 years.

Mark Wilson (**Confirmed**)  
President & CEO  
Florida Chamber of Commerce

**V. An Introduction to the Central Florida Water Initiative**

Guiding principles: (1) To identify the sustainable quantities of traditional groundwater sources available for water supplies that can be used without causing unacceptable harm to the water resources and associated natural systems; (2) To develop strategies to meet water demands that are in excess of the sustainable yield of existing traditional groundwater sources; (3) To establish consistent rules and regulations for the three water management districts that meet their collective goals, and implement the results of the Central Florida Water Initiative.

Michael D. Minton (**Confirmed**)  
Member, Central Florida Water Initiative  
Board Member, Central Florida Partnership  
Board Member  
Florida Chamber of Commerce  
Vice President, Dean Mead

**VI. Leading the Way in Regional Collaboration, Regional Cooperation & Regional Partnerships**
