

**SUMMARY OF THE MEETING**  
**CENTRAL FLORIDA WATER INITIATIVE**  
**REGULATORY TEAM MEETING**

**JULY 18, 2014**

The Central Florida Water Initiative (CFWI) Regulatory Team held a meeting at 1:30 p.m. on Friday, July 18<sup>th</sup> via WebEx / Teleconference.

Regulatory Team Members Present

Len Lindahl  
Sharon Trost  
Mike Register  
Alba Mas  
Janet Llewellyn  
Steve Lamb  
Jane Graham  
Richard Hamann  
Krystal Azzarella  
Laura Donaldson  
Beth Ross  
Ed de la Parte  
Silvia Alderman  
Debbie Bradshaw

Regulatory Team Members Absent

Mary Ellen Winkler  
Richard Hamann

Other Participants Present

Several unidentified participants joined the meeting by phone and WebEx.

**1. Call to Order**

Len Lindahl, the Team Leader, called the meeting to order. He welcomed all public participants and took a roll call of Team members.

**2. Review of June 18, 2014 Meeting Summary**

An editorial change was suggested.

**3. Status Update by Team Leads and Team Discussion of Near-Term Regulatory Topics:**

- a. **Per capita:** A presentation concerning this topic was presented at the June 27<sup>th</sup> Steering Committee meeting. The Steering Committee did not request any additional input from the Regulatory Team.
- b. **Water Shortage criteria comparison:** The Team had no comments on the comparison table. WMD staff will continue work to complete the table.
- c. **Aquifer recharge & impact offset sources and programs:** An explanation of the various table components was provided, and the Team reviewed and discussed the draft table. Concern was expressed regarding water quality issues associated with reuse of reclaimed water. DEP's regulatory program concerning this topic was identified. The WMDs will update the table, particularly in regard to those areas marked "unknown."
- d. **Resource redistribution:** An explanation of the various table components was provided, and the Team reviewed and discussed the draft table. The WMDs will complete the table, particularly in regard to those areas marked "unknown."
- e. **Caution area example review:** An update was provided and indicated the WMDs continue their work completing the table by providing a text description of the components for each area. It is estimated that this effort will take a substantial amount of time to reach closure.
- f. **Interdistrict transfer of ground and / or surface water:** The Team had no comments on the information previously provided.
- g. **Public interest (3<sup>rd</sup> prong test interpretation):** A status update was given. Information concerning this topic will be provided at an upcoming Team meeting.

h. **Conjunctive Use:** The Regulatory Team discussed a stakeholder's request to add an additional topic for Regulatory Team briefing. This topic is referred to as "conjunctive use." The Regulatory Team members discussed the potential scope of the topic and identified initial types of projects and associated considerations regarding allocation of water from multiple sources. Len Lindahl indicated he would discuss this request at the next Solutions Planning Team meeting to confirm whether or not that Team requested input from the Regulatory Team on this topic. Presuming this topic is to be assessed, Mr. Lindahl requested the WMDs to take the lead in identifying existing rules

4. **Pending Permit Applications**

An updated report was provided. A question was asked regarding the location of the proposed County Line Ranch project in SWFWMD.

5. **Open Discussion and Public Comment**

Jane Graham requested the Solutions Planning Conservation Sub-Team and the Regulatory team engage in closer coordination. The Conservation Sub-Team suggested it could begin this coordination by preparing a conservation measures list and provide the list to the Regulation Team for consideration and input.

6. **Review Schedule for Next Meeting**

The next meeting, a WebEx/Teleconference, is scheduled for August 1<sup>st</sup> at 1:30 p.m.

The meeting was adjourned at 3:00 p.m.
